

GENERAL EXCLUSIONS SCHEDULE

This schedule applies to every NorthStar property wording and operates in addition to the exclusions stated in the individual policy. Where an individual wording and this schedule conflict, the individual wording prevails to the extent of the conflict.

SECTION 1 — GENERAL EXCLUSIONS

1.1 War, invasion, act of foreign enemy, hostilities, civil war, rebellion, revolution, insurrection or military usurpation of power.

1.2 Ionising radiation or contamination by radioactivity from nuclear fuel or nuclear waste.

1.3 Any consequence of a cyber act or cyber incident, except to the extent written back by an operative endorsement.

1.4 Wilful act or wilful neglect of the insured.

SECTION 2 — MAINTENANCE AND GRADUAL CAUSES

2.1 The insurer does not cover loss or damage that develops gradually, including but not limited to gradual leakage, seepage, damp, condensation, rot, fungus, mould, and infestation.

2.2 Where damage results partly from a sudden and accidental event and partly from a gradual cause, the insurer will indemnify only that portion attributable to the sudden and accidental event. The burden of demonstrating the apportionment rests with the insured, and an inspection report establishing the mechanism of loss will ordinarily be required.

2.3 The cost of remedying a defect in design, materials or workmanship is excluded, though resulting damage may be covered.

ENDORSEMENT 1 — ESCAPE OF WATER INSPECTION CONDITION

Where the schedule shows this endorsement as operative, it is a condition precedent to liability for any escape of water claim exceeding PKR 200,000 that the insured produces an inspection report from a qualified plumber identifying the point of failure and stating whether the failure was sudden.

ENDORSEMENT 2 — UNOCCUPANCY CONDITION

Where the schedule shows this endorsement as operative, cover for escape of water is suspended after the property has been unoccupied for thirty consecutive days, rather than the sixty days stated in the policy wording, unless the water supply is shut off at the mains and the system drained.

ENDORSEMENT 3 — REINSTATEMENT BASIS

Settlement is on a reinstatement basis provided reinstatement is carried out without unreasonable delay. Where reinstatement is not carried out, settlement is on an indemnity basis reflecting wear and tear.

SECTION 3 — INTERPRETATION

3.1 Headings in this schedule are for convenience and do not affect its construction.

3.2 Where an amount is stated in this schedule it is inclusive of any applicable tax unless stated otherwise.
